

PAINTCO PIPE COATING 1996

DESCRIPTION

- Paintco Pipe Coating is a tailor made product to meet the exclusive requirements of pipe coating. Rapid drying, excellent water and weather resistance and adhesion are the salient features of this product.

PHYSICAL DATA

Appearance	:	Gloss
Colours	:	Clear & Transparent colours
No. of components	:	One
Specific gravity	:	Approx. 0.91
Supplied viscosity	:	15 seconds
Solids by volume	:	Approx. 26%
Drying time at 30°C	:	Dust dry : 10 minutes Hard Dry : 6-8 hours
Flash Point	:	27°C

APPLICATION DATA

Application method	:	Airless spray & Air spray
Type of thinner	:	Thinner # 32
Recommended DFT per coat	:	15 Microns
Theor. Coverage at 15 microns DFT	:	17.33m ² / litre

REMARKS

- The surface to be coated must be free from dirt, rust loose mill scales, grease etc. before coating.

Storage conditions

- The product should be stored at a cool place and should not be exposed to direct sunlight or rain.

Shelf life

Maximum one year.
